INFOSYS Sep 2024 - Dec 2024
WEB DEVELOPMENT

This certificate is awarded upon the successful completion of The Complete Web Development Training Courses, a comprehensive program that covers both front-end and back-end web development, along with modern web design principles. This course is designed to equip learners with the skills needed to build and design dynamic, responsive, and user-friendly websites.

The program provides a deep dive into HTML, CSS, and JavaScript for front-end development, focusing on creating visually appealing, interactive, and mobile-friendly designs. It also covers back-end technologies like Node.js, Express, and databases to enable full-stack development. Additionally, the course intro-

duces key concepts of web design, including UI/UX principles, responsive design, and best practices for user experience.
